WHAT IS THE PRODUCT?

Type: Special fund

Duration: The fund has no maturity date. The Fund Management Company has the right to close the fund and redeem the shares.

Objectives: The fund is an actively managed fund that invests primarily in fund assets in equities and transferable securities issued in the Nordic region. The fund is an actively managed fund that makes investments in equities, equity-related transferable securities, and interest-bearing securities with a focus on innovative and entrepreneurial growth companies. The focus of the fund is on investments in companies that are listed or are about to be listed on a regulated market or MTF market. The fund is actively managed and does not follow any index. This means that the manager makes their own active investment decisions. The aim is for the fund to exceed its benchmark index over a rolling five-year period. The fund's benchmark index is OMRX T-BILL plus 5 percent per year. The fund does not pay dividends. Purchases and sales of fund units can normally take place on the last banking day of each month. The sale of fund units requires a 60-day announcement. An indicative unit value is normally calculated daily. The fund's return is determined by how the value of the holdings in which the fund invests increase or decrease during the holding period.

Target group: This fund may be suitable for savers who plan to keep their investment for at least five years and who are aware that the money invested in the fund can both increase and decrease in value and that there is no certainty that the entirety of the capital invested can be recovered. No special prior knowledge or experience with mutual funds or financial markets is required in order to invest in the fund.

Other: The Depository: Skandinaviska Enskilda Banken (publ). The annual report, half-year report, information brochure, latest share values, and other practical information are available free of charge in Swedish at <https://aifmgroup.com/gainbridge-novus-nordic/>

WHAT ARE THE RISKS AND WHAT RETURNS CAN I ACHIEVE?**Risk indicator**

The summative risk indicator provides guidance on the level of risk of this product compared to other products. It shows how likely it is that the product will decrease in value due to market developments. We have classified the product as level 4 out of 7, i.e. a medium risk class. This means that the fund has a medium risk of increases and falls in the share value. The indicator primarily reflects increases and falls in the shares the fund is invested in. Risks that are not captured by the risk indicator include: Liquidity risk: In the event of extreme circumstances on the stock market, there is a risk of not being able to withdraw money from the fund within the set time. Operational risks: Delays and errors in processes, political decisions, and government decisions etc. may adversely affect the fund. Currency risk: The fund invests in financial instruments issued in currencies other than the fund's base currency. As a result, the fund is exposed to the currency risk that arises from changes in exchange rates. This product does not include any protection against future market performance. You may therefore lose all or part of your investment.

Outcome scenarios

What you get out of this product depends on future market performance. Future market development is uncertain and cannot be predicted with precision.

Recommended holding period: 5 years			
Investment example: SEK 100,000			
Scenarios		If you redeem after 1 year	If you redeem after 5 years (recommended holding period)
Minimum	There is no guaranteed minimum return. You may lose all or part of your investment.		
Stress	What you can get back after the deduction of costs	SEK 54,760	SEK 53,900
	Average return per year	-45.24%	-11.63%
Negative	What you can get back after the deduction of costs	SEK 95,941	SEK 82,071
	Average return per year	-4.06%	-3.87%
Neutral	What you can get back after the deduction of costs	SEK 108,728	SEK 160,226
	Average return per year	8.73%	9.89%
Positive	What you can get back after the deduction of costs	SEK 122,761	SEK 190,466
	Average return per year	22.76%	13.75%

The figures include all the costs of the product itself but possibly not all of the costs payable to your adviser or distributor. The figures do not take into account your personal tax situation, which can also affect how much you get back. The negative, neutral, and positive scenarios show the worst, average, and best performance of the product over the past ten years. The negative scenario occurred during the period 2021.08 -2022.11, the neutral scenario occurred in 2015.08 - 2020.08 and the positive scenario occurred in 2016.08 - 2021.08. Markets may develop quite differently in the future. The stress scenario shows what you can get back under extreme market conditions.

WHAT HAPPENS IF THE FUND CANNOT MAKE ANY PAYOUTS?

By law, the fund's assets may not be held by the Fund Management Company. Instead, each fund must have a special depository that takes care of holding the fund's assets. In the event that the Fund Management Company goes bankrupt, the management of the fund is taken over by the depository. There is no compensation or guarantee scheme for investors in the fund.

WHAT ARE THE COSTS?

The person who advises you on or sells the product may charge for other costs. If so, the person in question must inform you of these costs and how they affect your investment.

Costs over time

The tables show the amounts taken from your investment to cover different types of costs. The amount depends on how much you invest, how long you hold the product, and how your product performs. The amounts shown here are based on an example investment amount and different possible investment periods.

We have assumed the following: The first year you get back the amount you invested (0% annual return). For five years, we have assumed that the product performs in accordance with the neutral scenario. SEK 100,000 is invested.

	If you redeem after 1 year	If you redeem after 5 years
Total costs	SEK 2,090	SEK 13,990
Annual cost impact*	2.09%	2.8%

(*) This illustrates how costs reduce your return each year during the holding period. For example, it shows that if you redeem after the recommended holding period, your average return per year is estimated to be 11.74% before costs and 9.89% after costs. In recognition of their services, the person who sells the product to you may receive a portion of the costs that you pay to us. You will receive information about the amount.
